**Marinduque State College**

## **ABSTRACT**

The aim of this study is to find out the awareness and the current E-waste management situation in the province of Marinduque and the common practices being employed by the residents

and the local government units. The study was conducted in the six towns' "poblacion" of the

province. Interviews, surveys and field visits were also made with the different respondents which include teachers, students, businessmen, government employees, junk shop owners etc. to get the necessary information and feedback. The study reveals that among the six towns in the province of Marinduque, Boac and Sta. Cruz showed the highest use of electronic materials and of course wastes related to them. It was followed by Torrijos and Mogpog, then finally by Buenavista and Gasan. The electronic gadgets or equipment primarily used and owned are as follows: computer, CDs or DVDs, printer, CD or DVD player, headset, air conditioner, camera, cellular phone, television, mp3s, radio, batteries, refrigerator, flat iron, washing machine, electric fan, fluorescent lamps or bulbs; telephone, microwave oven and gaming console. It was also found out that majority of the residents sell those E-waste materials for recycling practices.

# **EFFECTIVENESS OF FIELD TRIPS AND SEMINARS: A STUDENTS PERCEPTION**

**RANDELL R. REGINIO, MIT**

**School of Information and Computing Sciences**

**Marinduque State College**

## **ABSTRACT**

The aim of this study is to find out the students perception on the effectiveness of field trips and seminars. The study was participated by twenty three (23) students from the School of Information and Computing Sciences at Marinduque State College, Santa Cruz campus and they were randomly selected. A questionnaire were administered as research instrument which was consisted of 24 questions, and the collected data was analyzed by using simple percentage method. Majority of the respondents agree that field trips and seminar guide to face future challenges and hindrances, and it is also helpful in satisfying psychological needs of students, and it develop more interest in learning among students. Further, the students viewed that it promotes cooperation and unity among students, and it help to achieve better results at higher level, and lastly, that field trips and seminars get a chance to learn more information from teachers.
